## What do people have to say?

Wow...I just got through the disc for the first time. Really, really good!! *Scarlet Haze's* music is powerful and ballsy, but still hooky and embracable. She has a very polished voice with great tone as well. I'm seriously impressed. Best record I've heard out of MNPLS in a long time. Eric Van Beek, **Production Director / KRRO 103.7**, Sioux Falls, SD

"*Scarlet Haze* is one of those bands that just might have what it takes to make it. I wouldn't be surprised if they got a hit one-day. And with the right promotion / marketing, who knows, maybe their rock-songs (or ballads) one day will." – **Past and Present Webzine**, Faroe Islands, Denmark

"It floors me that *Scarlet Haze* isn't beaming from billboards, or reaching through radios. I feel like they are my little secret! There's a whole lot of soul stuffed in such a little girl, and I imagine big things for them when the bubble finally bursts.... It's about time the secret's out." – Josh Bitney, **KXXR / 93X Morning Show DJ**, Minneapolis, MN

"This band seems to be on the fast track! They have the entire package.... Hands down! They definitely bring it to the live show." – John Heinen, **A440 Studios / Owner, Engineer**, Minneapolis, MN
