

# SAINTS OF THE UNDERGROUND

"Starring members of Warrant, Alice Cooper and Ratt"

**Saints Of The Underground** are a brand new kick-ass rock 'n' roll band that includes the talents of ex-Warrant Singer and Songwriter **Jani Lane**, as well as Alice Cooper's right hand **Keri Kelli**, the rhythm backbone of Ratt – **Bobby Blotzer** on drums and bassplayer **Robbie Crane**.

**Saints Of The Underground** is a fresh start for these multi platinum sellers and a proper band as well – not just a one-off project. These guys are hungry for a new challenge!

Formed in 2007 the band has already built up a fine reputation among the public and industry crowd. They have also recorded a damn hot debut album in Bobby Blotzers own studio. **Andy Johns**, who has worked with legendary greats such as the Rolling Stones and Led Zeppelin, has mixed the recordings. The album will be released in early '08 and is full of cool pop hooks, big guitars and rock 'n' roll attitude. On songs like "Dead Man's Shoes", "Exit" or "Signs of Life",

**Saints Of The Underground** manage to sound classic and unique and provide old and new fans with a straight and instant rush of adrenalin.

**Saints Of The Underground** are a very tight live unit and immensely entertaining. They are ready to tour Europe and will perform a spicy cocktail of songs from their magnificent debut album "**Love The Sin, Hate The Sinner**" as well as a healthy dose of classics from their successful past – songs from Warrant, Ratt and Alice Cooper: be ready to hear tunes like "Cherry Pie", "Heaven", "Round And Round" or "Poison". This will be one hell of a show – **BE THERE!**
